Deals on what you've been looking for: The savings percentages indicated are the savings over the average price on eBay. We looked at the average selling price on eBay for the keywords over a 15-day period. We compared the average selling price on eBay to the featured items currently on the site, and then calculated the difference to show the savings percentage. Because this is based on average eBay selling price, the actual price difference may vary.

One-day deals/Daily Deals: We compared the selling price for the featured Deals items on eBay to the List Price for the item. The List Price is the price (excluding shipping and handling fees) the seller of the item has provided at which the same item, or one that is nearly identical to it, is being offered for sale or has been offered for sale in the recent past. The price may be the seller's own price elsewhere or another seller's price. The "% off" simply signifies the calculated percentage difference between the seller-provided List Price and the seller's price for the eBay Deals item. If you have any questions related to the pricing and/or discount offered in eBay Deals, please contact the seller. All items subject to availability.

Shipping and handling charges not included in any savings percentage calculations. No representation is made that any particular item will be available at a particular price. All items subject to availability.
